

# BELLOWS MATERIAL 3.5 Bar - 40 Bar

| MAIN APPLICATIONS                  | MATERIALS                                       |
|------------------------------------|---|
| Hot balasts, Gases, Air            | SUS 304; SUS 201<br>SUS 316; SUS 316L<br>SUS321 |
| Hot water, Steam, Water            |   |
| Petroleum                          |   |
| Seawater                           |   |
| High Temperature fluid such as FCC |   |
| Cryogenic fluid such as LNG, LN 2  |   |
| Heat Exchanger                     |   |

Single-ply bellows

Double-ply bellows

Triple-ply bellows
